EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven Callistein on 28 September 2004.

The application has been amended as follows:

In the Abstract, line 10 on page 52 of the specification, the phrase "methods for" has been deleted.

At claim 1, "Seed" has been amended to -- A seed --.

Claim 6 (Amended) [A] The tissue culture according to claim 5, wherein the cells or protoplasts [of the tissue culture] are [obtained] produced from a plant tissue selected from the group consisting of[:] leaf, pollen, cotyledon, hypocotyl, embryos, root, pod, flower, shoot and stem.

At claim 7, line 1, "and" has been deleted from the claim.

At claim 8, line 1, ":" has been deleted from the claim.

2. In an Examiner initiated interview with Applicant's representative Steven Callistein on 28 September 2004, Mr. Callistein approved the above amendments to the Abstract and Claims to put the application in condition for allowance. The amendments have been made as a matter of form only.

3. The following is an examiner's statement of reasons for allowance: The closest prior art is Schultze, U.S. Patent Application Publication US 2003/0192080 A1, filed 5 April 2002 and published 9 October 2003.

Schultze discloses soybean cultivar S010346 that has purple flower color, brown pod color and tawny plant pubescence color. Soybean cultivar S010346 differs from the soybean cultivar of the instant invention in that it has a slate hilum color, a lower seed protein content and a higher average yield, and thus neither anticipates nor makes obvious the instant invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

REQUIREMENT OF ALLOWANCE UNDER 37 CFR §§ 1.801-1.809

4. The Deposit Statement on page 49 of the specification is deemed in accordance with 37 CFR §§ 1.801-1.809. Since the application is otherwise in condition for allowance except for the needed deposit of seed, and since the Office has received written assurance that an acceptable deposit will be made on or before payment of the issue fee, the Office is authorized to mail Applicant a Notice of Allowance and Issue Fee Due together with a requirement that the needed deposit be made within THREE (3) MONTHS of the mail date of this letter (see 37 CFR § 1.809(c)).

As set forth in 37 CFR § 1.809(c), Applicant is required to deposit 2500 seeds of the claimed plant within THREE (3) MONTHS of the mail date of this letter; thus the time for making the deposit is on or before the payment of the issue fee.

Applicant is reminded that once the deposit of seed has been made, information regarding the date of deposit, description of the deposited material including number of seeds deposited, name and address of the depository, and the accession number must be added to the specification in order to comply with 37 CFR § 1.809(d). In addition, the claims must be amended to replace the blank “_____” with the appropriate Accession Number. Amendments to the specification and the claims must be filed under 37 CFR § 1.312.
